PASSED **Structural Integrity Audit** — Ref: SIA-8821 (Audited Oct 2026)

PASSED **Fire & Life Safety Clearance** — Ref: FLS-9110 (Audited Oct 2026)

SECTION IV: STATUTORY TERMS & REGULATORY COVENANTS

This permit is issued under Section 104-B of the Metropolitan Municipal Code. The holder of this permit agrees to strictly abide by all regional environmental standards, structural load limits, and municipal safety codes throughout all phases of development and operations.

1. **Operational Scope:** Activities conducted within the designated real estate parcel are restricted solely to research, testing, and light commercial assembly as authorized under Zoning Class C-3.
2. **Environmental Compliance:** Wastewater discharge, chemical storage, and HVAC emission levels must be continuously logged and transmitted to the Municipal Environmental Registry on a quarterly basis.
3. **Structural Modifications:** Any secondary modifications beyond the approved blueprints filed under Ref: SIA-8821 must receive prior written clearance from the Chief Inspector.
4. **Access & Audit Rights:** Municipal inspectors reserve the unconditional right to conduct unannounced safety and zoning audits during standard working hours (08:00 to 18:00 local time).

SECTION V: MANDATORY INSPECTION SCHEDULE

Phase	Inspection Requirement	Target Date	Status
Phase I	Foundation & Sub-structure Load Audit	November 15, 2026	Scheduled
